Product Overview

The Green Lion Communicate Plus Over-Ear Headset uses some of the most advanced Bluetooth connectivity, classed as V6.0, to deliver clear, undisturbed communication. It features dual connectivity, which facilitates seamless, effort-free switching between devices. Its feather-light feel assures comfort even on extended use, while the 180° rotation provides an easy, reversible fit for both ears. With an IPX4 waterproof rating, it is suitable for use in different environments, including workouts and outdoor events. This headset boasts an impressive 29 hours of playtime and up to 10 days of standby, making it a reliable accessory for users, whether working out, traveling, or using it in the office. Moreover, with USB-C charging, this headset gets powered up in no time.

Specifications

Material	Titanium Alloy
Battery	170mAh
Bluetooth	V6.0
Transmission Range	10 m
Speaker	10 mm
Frequency	20Hz-20kHz

Impedance	32Ω±15%
Sensitivity	106±3 dB
Microphone	1*MEMS
Latency	80 ms
Waterproof	IPX4
Charging Port	USB-C
Charging Time	1.5 Hrs
Playtime	29 Hrs
Talk Time	18 Hrs
Standby Time	10 Days
Product Weight	12.8 g
Product Dimensions	22.8*61.5*59.5 mm

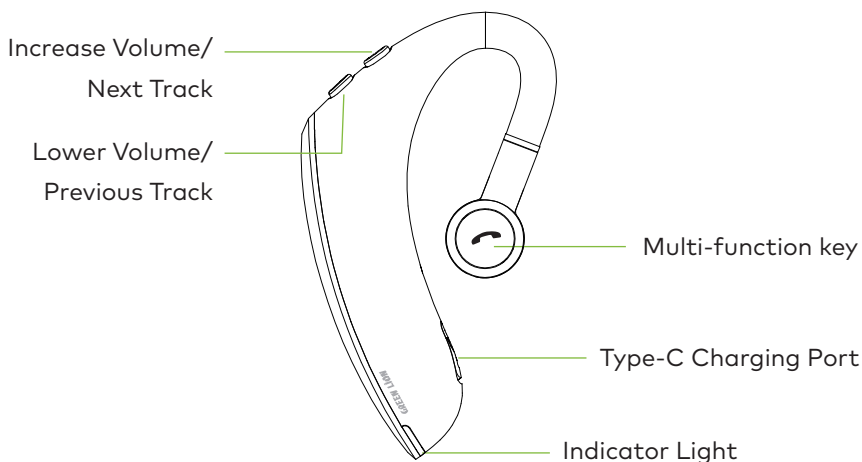

Button Functions

1.

Powering On: Press and hold the multifunction button for about 2 seconds until the blue light flashes 3 times.

2. Powering Off: Press and hold the multifunction button for about 4 seconds until the red light flashes 3 times.
3. Answering/Ending a Call: Click the multifunction key.
4. Song/Pause: Click the multifunction key.
5. Rejecting a Call: Long-press the multifunction button for about 2 seconds.
6. Redialing: Double-click the multifunction key quickly.
7. Voice Dialing: Long-press the multifunction button for about 2 seconds to start voice dialing.
8. Previous Song: Long-press the volume button (+) for about 2 seconds.
9. Next Song: Long-press the volume button (-) for about 2 seconds.
10. Prompt Tone Switch: Quickly tap the multifunction key twice.
11. Charging: The red light remains on while charging.
12. Fully Charged: The blue light remains on when full.
13. Low Battery Alert: "Low Battery Please Charge" voice alert.

Product Components

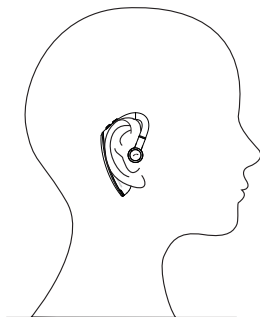

Reconnecting to the Phone

1. When the headset gets disconnected from the phone for being out of range, you will hear a voice prompt "Disconnected."
2. Reconnect (Out of Range): If the headset disconnects due to being outside the connection range, move the headset back within 5 meters of the phone, and it will automatically reconnect. If more than 1 minute has passed, click the multifunction button to reconnect.
3. Reconnect (After Use): No need to enter pairing mode again. The headset will automatically reconnect to the last successfully paired phone.

Pairing

1. Press and hold the multifunction button for about 2 seconds. The indicator lights will flash red and blue, and the headset will enter pairing mode.
2. Turn on your phone's Bluetooth function. Search for "GL-TWS91", then click on it to automatically connect.

NOTE: This headset is compatible with almost all of the digital products.

Disconnecting from the Phone

To disconnect the headset from the phone (for example, when connecting your phone to another Bluetooth device), use one of the following methods:

1. Turn off the headset.
2. Turn off the Bluetooth on your phone.
3. Delete the pairing name from the list of paired devices on your phone.

Connecting Two Phones

1. Connect the first phone, then turn off the Bluetooth on the first phone.
2. Connect the second phone and turn the Bluetooth on the first phone back on.
3. The earphones will automatically reconnect to the first phone, allowing them to be connected to two phones.

Charging Instructions

The headset has a built-in rechargeable battery. Before using the headset for the first time, we recommend fully charging it. When charging, the indicator light will be red. The battery is fully charged when the red light changes to a solid blue.

Note: Please use the original charger, and ensure the charging voltage does not exceed 5V.

Troubleshooting

1. You hear the sound "Disconnected":

The Bluetooth signal can reach up to 10 meters in open environments. Since the human body can interfere with the signal, we recommend placing the headset on the same side as your phone to achieve the best results.

2. Does the headset have no sound?

Make sure the headset is activated and fully charged.

3. Phone and headset are not connected?

- a. Make sure the headset is paired with the phone.
- b. Make sure your phone's Bluetooth is enabled.
- c. Make sure the headset is within 10 meters of the phone, with no obstructions (e.g., walls or other electronic devices) between them.

If the above steps do not resolve the issue, try the following:

- A. Recharge the headset.
- B. Restart the phone.
- C. Turn on Bluetooth and delete the previous pairing history.
- D. Re-pair the Bluetooth headset with the phone.

Precautions

- 1. Do not place this headset in the airbag area inside the vehicle, as it may cause serious injury when the airbag deploys.
- 2. Keep the headset away from children. Small parts may pose a choking hazard.
- 3. In hospitals, blasting sites, or areas with potentially explosive atmospheres, users may be required to turn off electronic equipment and radios. Always pay attention to local regulations and instructions.

4. Before boarding an aircraft, please turn off the headset, as it cannot be used during the flight.
 5. To protect your hearing, do not adjust the volume to a level that is too loud.
 6. Do not attempt to modify or disassemble the headset.
 7. Do not use this headset in wet or rainy conditions.
 8. Do not clean the headphones while they are in the charging state.
- Always clean the headset and charger separately after unplugging.

Battery Replacement

If the battery is not replaced properly, there is a risk of explosion. The battery can only be replaced with the same or an equivalent type of battery. Batteries (battery packs or combination batteries) should not be exposed to extreme conditions such as direct sunlight, fire, or similar overheating sources.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **<https://www.greenlion.net/warranty>** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
